Mark I only requested to do with the first link what you did with the second (the temp removal which worked great).

Is there a misunderstanding , I never intended to act smart or offensive.
Let me know, I really believe there might have been a communication gap.

Mark I really don't understand.

You did great work

I'm totally confused?

I'm very happy. Can you tell me what upset you?

Good day Delmare

And if you tell others

To abuse my service

And my time

In this way

Guess what

They don't get their money back

This email transcript

Between you and myself

Is my guarantee

Good day Delmare

You must follow my process

Exactly

And do what I tell you to do

And don't act smart with me

Or

You get your money back

And I reverse the work I do for you

For the first and last time

Mark

Hi Mark

I saw you did a temp removal of link 2 in the past and that worked up to now.

The first link (page) however is appearing in search results.

Can you also do a Temp Removal of this page.

Thank you very much

Good day Delmare

Send me the two screenshots showing the prescribed URL not appearing in Google search

results. Then all of a sudden reappearing (and persisting) in Google search results.

To: Mark Berchowitz <mark@greengazette.co.za>

Thanks Mark

I've checked the link and it didn't appear in the Google Search results.

Today I checked again and saw it's back.

I'm not sure why it was gone for a couple of weeks and now back again.

Can you help me. I would really appreciate this.

Good day Del

I don't have control of Google's system

The temporary remove is the only other way I'm aware of

To expedite your request

Post me implementing both methods, if your desired effect, that is, for the webpage you want to be removed from Google search results is not happening, you must tell Google.

Mark

Thanks Mark

Will you however let me know the status of the Temp Removal as soon as it is updated

Have a great day

Good day Del

It typically takes longer than weeks for your order to be effective at Google.

Since one of your URL's is already effective I go ahead and expedite your second URL at Google as:

Submitted requests 				
URL	Type 	Requested 	Status	
https://www.greengazette.co.za/docs/legal-notice-29588-of-09-feb-2007-vol-500_20070209-LN0-29588.pdf	Temporarily remove URL	Mar 23, 2021	Processing request	

Rows per page: 10  1-1 of 1  

Google tells me my above expedite request is "temporary" and applies for up to six months. Your original permanent removal request should kick in before my "temporary" instruction expires 2021-09-23.

Subject: URGENT - Payment Query: Remove this webpage from appearing in Google search results

To: <admin@greengazette.co.za>

Good day

I've paid for 2 pages to be removed from Google Search Results on the same day a week ago. One page doesn't appear on Google but the other remains.

Can we expedite the removal of the second page.

Link:

https://www.greengazette.co.za/docs/legal-notice-29588-of-09-feb-2007-vol-500_20070209-LN0-29588.pdf

Much appreciated.

Regards

Del

If you require payment details, I included the attachment below
