Good day Mr Drummond

I want to re-establish a line of communication with yourself and / or tell me which news reporter to contact that covers the territory I'm currently at, being Kenya, Africa.

Topics of the up-to-date news I want to share include sex tourism: with minors, those with illness or disease, theft, misrepresentation, fraud, and extortion.

From what I can tell, the applicable audience is from the US, China, the UK, and India [<https://www.statista.com/statistics/1140104/main-origin-of-international-tourists-in-kenya-2018-2019/>].

The situation already escalates towards violence.

I'm available via email, phone (WhatsApp, Skype) and / or for interview. I also document substantial reference information which is immediately available.

I would appreciate your earliest response on this and possible way forward.

Good day Mr Drummond

Correction: Topics of the up-to-date news I want to share include **indirect forced** sex tourism: with minors, those with illness or disease, **married women**, theft, misrepresentation, fraud, and extortion.
